HUMANITY IN TRANSITION

An Academic Symposium

INFORMATION TECHNOLOGY SEGMENT

Research, Technology & Society

FINAL PRESENTATION GUIDELINES

The shortlisted schools will present their refined research papers through a PowerPoint presentation and their final research paper. The final paper must incorporate the feedback given by the certifying authorities.

Final paper presentation: Thursday, 5 November, 2026
Presentation time: 10 minutes

General Guidelines -

- Each shortlisted school must participate with its registered team of **1-2 students** from **Classes 11 and 12.**
- Teams *must retain their original topic.* The final paper must be an enhanced version of the initial paper.
- A presentation (in the form of a PPT) is compulsory. This will be presented while the teams are speaking.
- Participating schools must bring a **pendrive** containing their presentation and submit it on the morning of the symposium. **Please label with SCHOOL NAME**. The pendrive must be in working order. The host school will provide a **laptop**. It is advisable to carry the presentation on a second back up pendrive.
- **Reading verbatim** from the slides or from a written script is discouraged. Notes or cue cards may be used.
- The language of presentation will be **English only**. Use of vernacular language is not allowed.

Conclusion and Expected Learning Outcomes

The Information Technology Segment is designed to train students in rigorous, evidence-based research, whether through technical investigation in the Technical track or through inquiry in the Interdisciplinary track. The aim is to foster engagement with real-world challenges at the intersection of technology and society.
